PALEOSCAN™

DATA CONNECTOR - *RELEASE NOTES*
Petrel®

Integrated Seismic Interpretation Software

PaleoScan™ Data Connector 2021.1.0

Petrel® to PaleoScan™

Feature	Description
Borehole	Improving well tops management by adding drag and drop option for single or multiple well tops.
3D faults	Improving the fault interpretation transfer by recognizing the object domain. Now the fault transfer process detects the Time or Depth domain.
Progress bar	Progress bar available during the transfer of the following objects: <ul style="list-style-type: none"> • Horizon • Fault • Wavelet • Culture Data • 2D line • Borehole • Marker • Well

PaleoScan™ to Petrel®

Feature	Description
Volume	Fix crash while transferring a volume with a different CRS from the Petrel® project CRS. Fix survey issue when transferring volume from PaleoScan™ to Petrel® which generated a larger survey compared to the original one.
Progress bar	Progress bar available during the transfer of the following objects: <ul style="list-style-type: none"> • Fault • Horizon • Culture Data • Geobody • Layer • Multi-Z • Wavelet

Licensing

The PaleoScan™ Data Connector 2021 is included as an add-on module to PaleoScan™ 2021. It can be downloaded from Eliis web site. A personal user account is required. If you do not have a login and password to access Eliis extranet, you can fill up this [form](#).

Eliis provides you a free 30-day temporary license to evaluate PaleoScan™ 2021 including the Petrel® plug-in. The temporary license will give you a full access to the software with all add-on modules.

Compatibility

The PaleoScan™ Data Connector 2021.1 is only compatible with Petrel® 2020 and PaleoScan™ 2021:

PaleoScan™ Data Connector 2021.1	
Required PaleoScan™ versions	Required Petrel® versions
PaleoScan™ 2021 (64-bit) and above	Petrel® 2020 (64-bit)
